PEOPLE

We at ÖZKURSAN began our journey in 1993, when we broke new ground in Türkiye by designing and launching the first domestically produced blank ammunition. In 2008, we expanded our product range by introducing hunting and sporting cartridges. In 2019, we continued our journey by manufacturing pistol and rifle cartridges.

THE SECRET OF OUR SUCCESS IS IN OUR GOALS

Quality and customer satisfaction remain at the heart of our work. We continue to expand our capacity and pursue new goals.
